

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-0186/2dn
MES:sac:ph

November 14, 2012

Rep. Kleefisch:

Please review this draft carefully to ensure that it meets your intent. The language in the predrafted materials that you submitted as proposed amendments to s. 66.1105 (6) (e) 1. a. and (f) 1. a. does not seem to be consistent with the narrative description of your proposed solution to the problem of TIDs being unable to share tax increments if they do not share similar overlying taxation districts because of the presence of certain lake districts or town sanitary districts in either the donor or recipient TID.

Based on my understanding of your intent, as contained in your narrative description of the problem you hope to address and your proposed solution, I believe that this version of the draft meets your intent, even though it uses different language than your proposed amendment of s. 66.1105 (6) (e) 1. a. and (f) 1. a. Please let me know if I have misconstrued your intent and if the draft needs to be redrafted.
